## Individual Brainstorm

? **Question #1:** Describe your website subject in detail:

What do you already know about your social impact topic? (50+ words)

Since I am a crocheter 🧶 my idea about my social impact website would be creating a crochet community to upload new patterns and share our work within the community. As crafting is therapeutic we can emphasize mental well being, also emphasize using eco friendly material. The idea is to build a community to let people meet each other all over the world.

What do you still need to find out about your social impact topic in order to create a meaningful website? (20+ words)

How to let this social impact website help other people not only the crafters and how it can contribute more.

Who are the stakeholders involved with/affected by your social impact topic? ie children, people living in cities, politicians, CEOs, female-identifying persons (20+ words)

The stakeholders involved in the crochet club topic include crafters of all skill levels, children, senior citizens and community organizations.

? **Question #2:** Describe your proposed website in detail:

What is the purpose of your website? (30+ words)

The purpose of the website is to create a supportive community for crochet enthusiasts, provide resources and tutorials to learn and improve skills, promote creativity, foster mental well being and encourage sustainable crafting practices.

Who is your intended user? (30+ words)

The intended users are crochet enthusiasts of all skill levels, including beginners seeking to learn, experienced crafters looking for inspiration, community members interested in workshops or meetups and organizations supporting sustainable.

How will your user interact with your website? (30+ words)

Users will interact with the website by browsing tutorials, participating in forums, sharing their projects in the gallery, joining events and workshops, accessing resources for sustainable crafting, and connecting with other members.
